# **Scams**

Scammers try new methods to trick you all the time. But if you know the signs to look for, you may avoid becoming a victim.

## 5 Signs of a Scam

# If you spot any of these tactics, stop and walk away. You're probably being scammed.

#### 1. They contacted you

When you contact a business, you know who's on the other end of the line. But when someone contacts *you* first, you can't be certain they're telling the truth. You don't know if they are whom they say they are. And remember, email addresses and caller ID information can be faked.

### 2. They dangle bait—usually money

Let's face it: People simply don't give away large sums of money easily. If someone dangles bait in front of you—a big prize, a shopping spree, an easy loan — for nothing, they're probably lying.

#### 3. They want your personal information

Anytime *anyone* asks for your personal information — bank accounts, social security number, etc. — you should be on alert. Don't give it away quickly or easily, especially to someone you don't know. You may become a victim of identity theft.

#### 4. You have to pay them first

If someone offers you a prize, debt relief, or employment — but first you have to pay an upfront fee to get it —you're probably being scammed.

# 5. You have to wire money or send gift cards

If you're about to wire money or send gift cards to someone in order to receive a prize or pay off a debt collector that contacts you ...**STOP!** This may be a scammer trying to take your money.
